

Welcome to The Bandroom!

Where you get free hype sounds & backgrounds for your team

1

Open Bandroom and click "The Bandroom"

It's the button at the top of the app -- a whole world of songs and backgrounds that other players made!

2

Tap your team, or just scroll

Search for your school, or scroll the "Newest Uploads" row at the top to see what's fresh from everyone.

3

Pick Sound Bank or Trophy Room

Sound Bank = songs and hype clips.

Trophy Room = background pictures for your team.

4

Tap any tile -- that's it!

Songs play a quick preview. Pictures? Tap "Set as Background" and it becomes your team's look. No downloads, no signup.

No account. No password. Just click and go. Have fun!

Sharing Your Own Stuff

Add your own songs and backgrounds for everyone to use

1

Find the "+ Upload" tile

It's the last tile in Sound Bank or Trophy Room -- always has a big + on it, easy to spot.

2

Choose your file

Pick a song (like an mp3) or a picture (like a jpg or png) from your computer. Any normal file works.

3

Give it a name

Something short and clear, like "Touchdown Horn" or "Home Stadium Sunset" -- so others know what it is.

4

Hit upload and you're done!

Bandroom shrinks the file automatically so it's not huge, then it shows up for everyone, right away.

Only you can delete your own upload later --
your browser remembers it's yours. See something bad? Tap Report.
